ELEVATE YOUR WORK EXPERIENCE

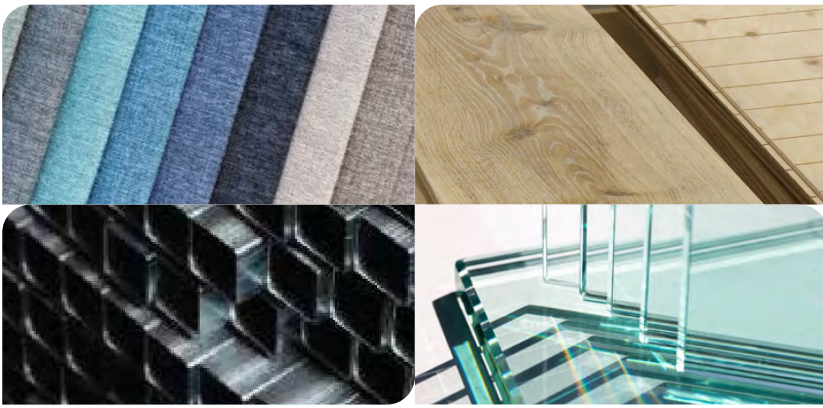

Modular Partition System

Designed for flexibility, modular office partitions are customizable to define zones and adapt on different work areas whether it's for collaborative hubs or to enhance personal spaces for individual tasks.

A scalable smart solution

Provides proper division for privacy without limiting employee interaction and teamwork.

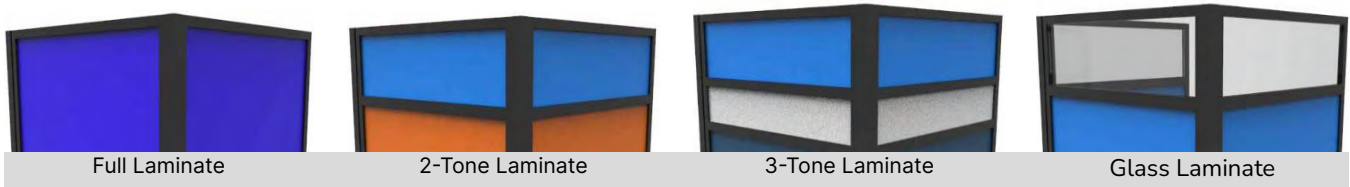

Partition Finishes

Partitions can be made from laminated wood, fabric, metal, glass or a combination of these materials from 2 to 3 tones.

Sample combinations:

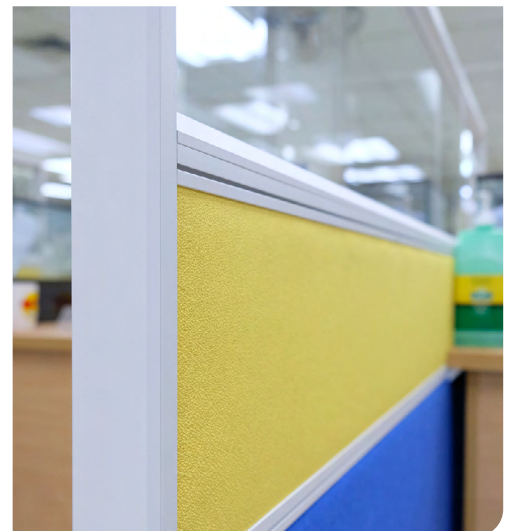

Glass-Laminate	Fabric-Metal
Glass-Fabric	Fabric-Laminate
Glass-Metal	Fabric-Glass-Laminate
Laminate-Metal	

**Sample partition finishes*

**Office partitions project in
NHMFC, Makati City*

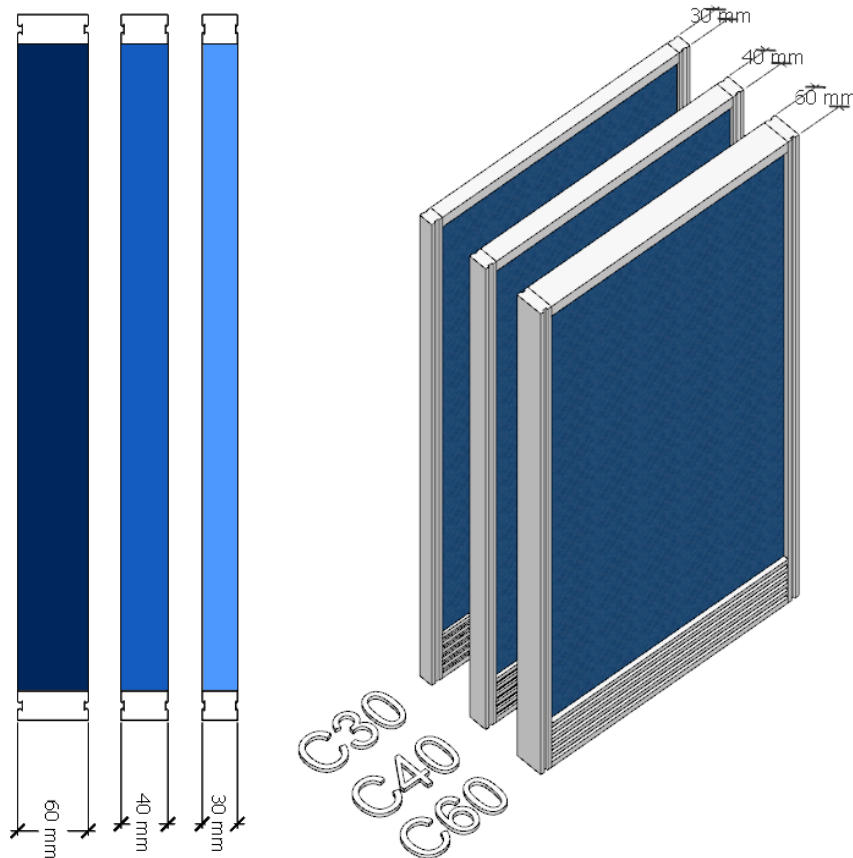

Partition Thickness

Thickness of partitions can vary from 30, 40 and 60mm with a height that can be customized from 1200mm up to 2400mm.

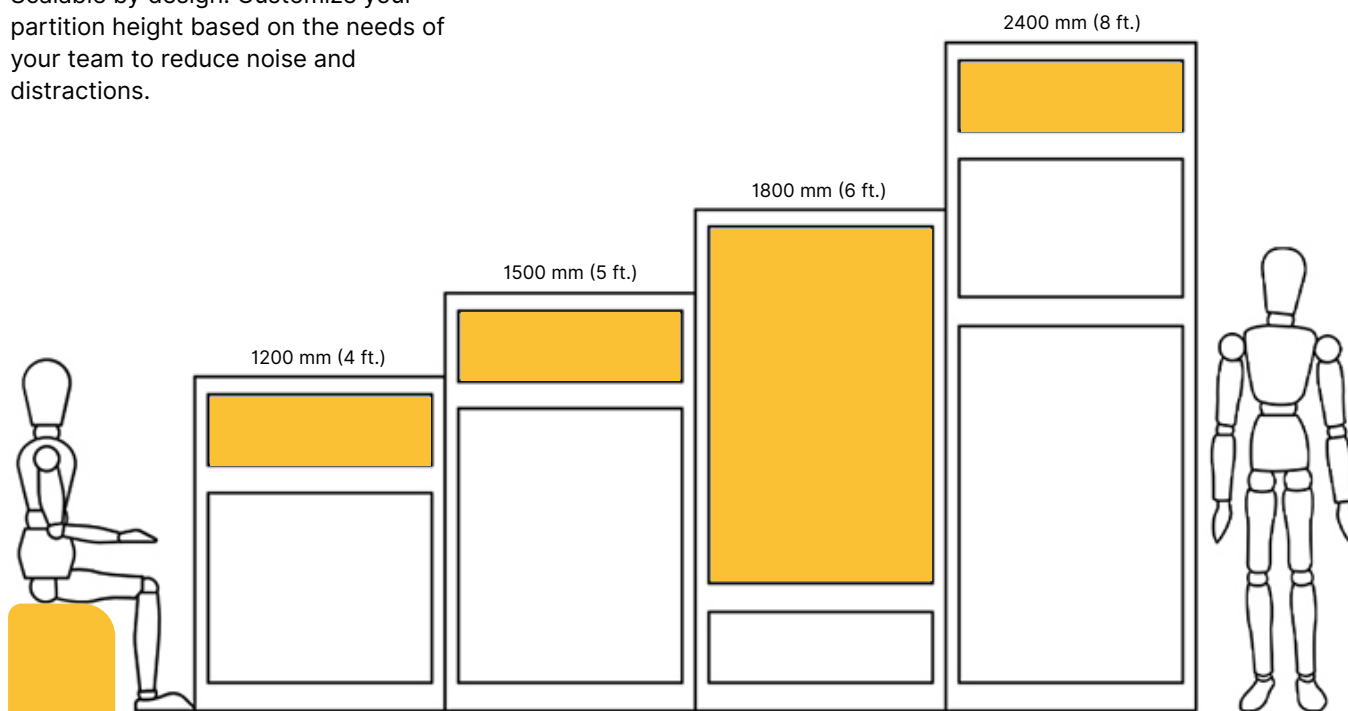

*CS30 + CS60 can be joint together.

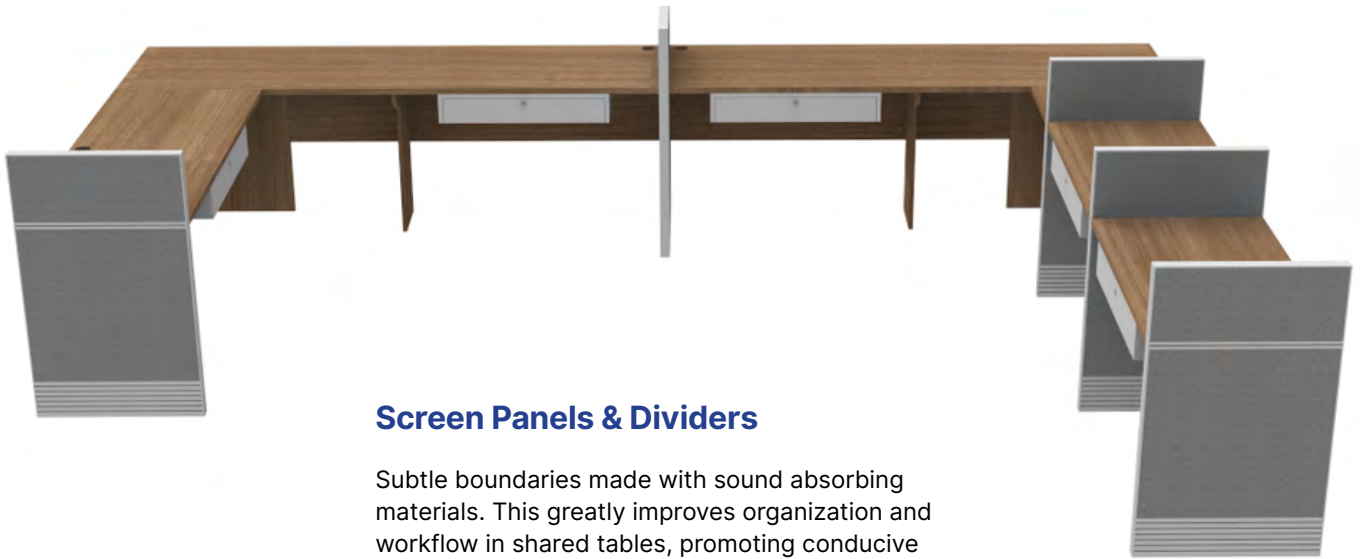

**Sample comparison of partition thickness*

Partition Height

Scalable by design. Customize your partition height based on the needs of your team to reduce noise and distractions.

Screen Panels & Dividers

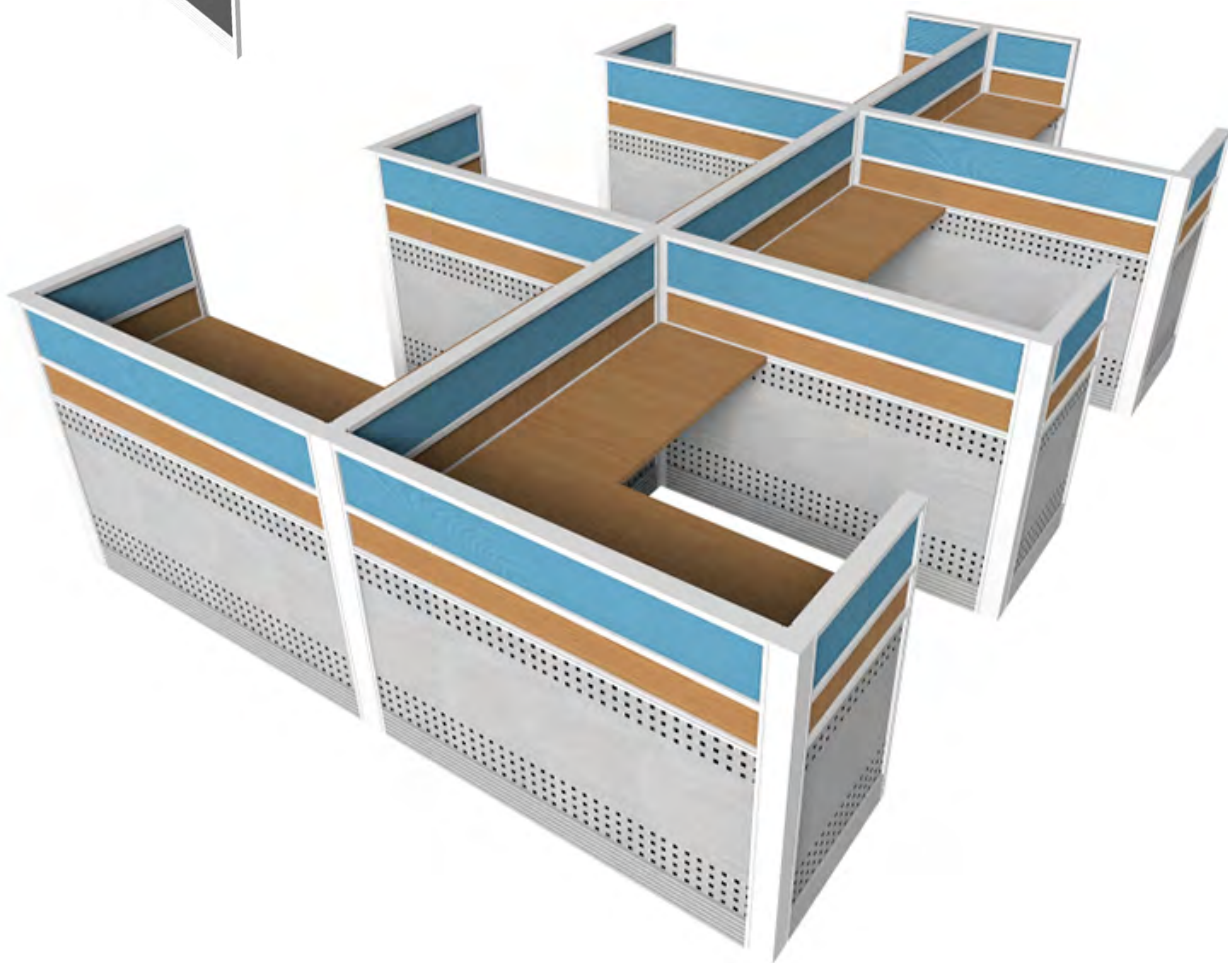

Subtle boundaries made with sound absorbing materials. This greatly improves organization and workflow in shared tables, promoting conducive environment.

Make your vision happen

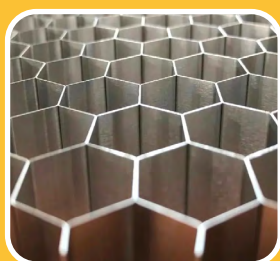

Customization made easy, flexibility in delivery and installation from our manufacturing facility in Bacoor, Cavite with thorough site evaluation, measurement and client consultation.

Privacy Pods

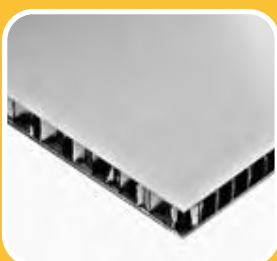

Work better in private pods with flexible functions, mobility and excellent sound reduction that can hold around 30dB. Suitable for almost any profession and location.

Basic Features

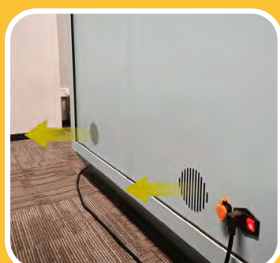

Honeycomb Aluminum Panels

Built with lightweight panels made with durable honeycomb core attached in between aluminum sheets, resisting chemical exposure and greatly contribute to reducing noise transmission.

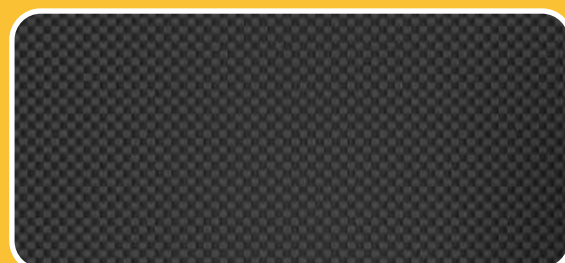

Sound Insulated Glass

Two options for pod's glass: (a) *Tempered glass* reduces noise in the pod and (b) *Laminated glass* for complete soundproofed space, best for some activities like recording sessions.

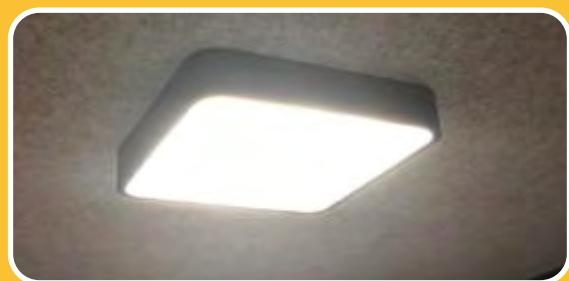

Ventilation System

Breathe comfortably. We make sure to prevent heat and keep a good air quality inside the pod through ultra silent ventilation system.

Carpet

Pod's carpet contributes to sound insulation. It is nylon anti-static and gives more convenience for its good stain resistance.

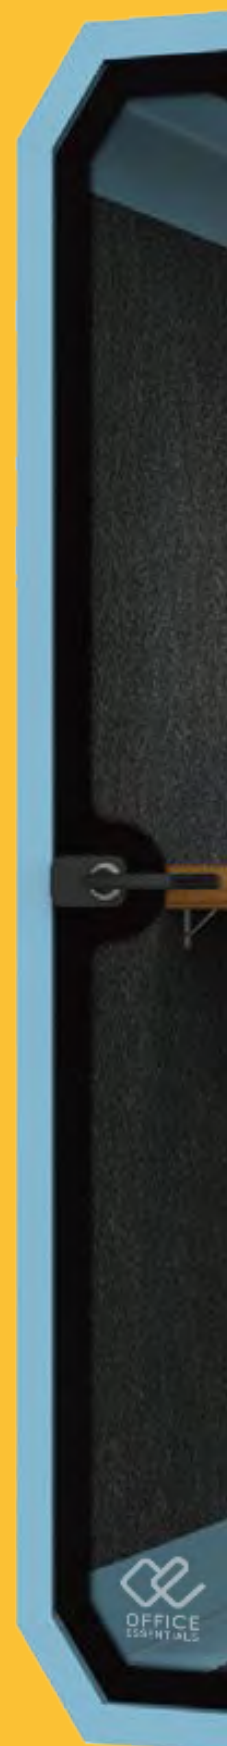

Illumination System

Power: 19~50W
Illumination: 3000~5000LM
Natural light color temperature: 4000K~65000K

Standard Electronic

12V USB Power Supply
Power rated for 100~200V/50Hz

Custom Features

Smart Glass System

Avoid getting distracted by onlookers through the smart glass system that turns from clear to translucent, which also helps in minimizing light transmission.

Trolley System

Time won't be wasted in reassembling the pods. Quickly move the pod or change its positions through adding durable trolley beneath.

Code Lock

Fingerprint

Face ID

Digital Door Lock

These locks offers a more secure access in your pods while giving you an opportunity to also monitor or record its active users.

Frame & Exterior Colors

Customize colors that perfectly fits in the overall design of your office. Get creative, mix and match colors and patterns.

Custom Features

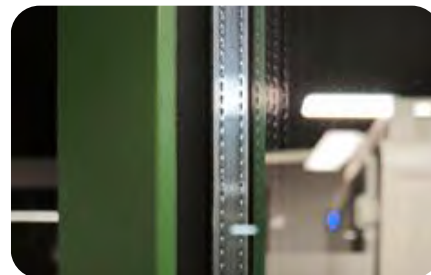

AC System

Add a mini AC system, placed on top of the pod, for outside use or in places without air condition.

Disabled Accessibility

Convenience for people with disabilities accessing the pod through an embedded foldable ramp which can be operated manual or auto.

Double Glazed System

For better sound insulation, use double layers of tempered glass with vacuum layer in between.

- Tempered Glass: 5mm x 2
- Vacuum Layer: 12mm

Display Wall

Add a supporting pillar for your display devices and multi-functional sockets with ports for LAN, HDMI, and more.

Upholster Acoustic Panel

An effective choice for increasing the NRC rating and optimizing the reverberation time inside the pod.

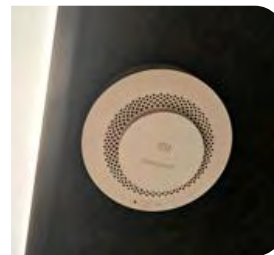

Motion Sensor Light

The sensor has passive and active detection. It detects the user inside the pod to control the lights.

Fire Fighting Equipments

Pods are made with safety equipments just like the traditional rooms. It includes smoke detector, fire alarm, sprinkler and hammer, etc.

Pod Doors

Pod doors are also customizable:

- Swing or slide door
- Aluminum frame for safety
- Door closer for gentle closing and can be fixed at 90° position.
- Door lock and handles

Add Furniture Right Away!

Pre-order custom furniture for a ready to use privacy pods upon installation.

Wall & Ceiling

Silver Grey

Light Grey

Dark Grey

Sesami Black

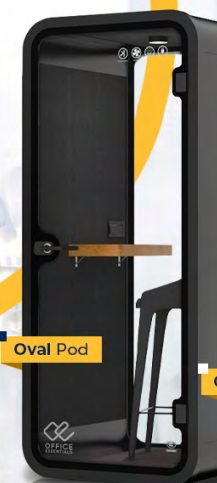

Black

A sound damping matt that helps in noise reduction. Made of eco-friendly material with recycled acoustic felt, 100% polyester fiber acoustic panel, harmless to users.

Note: Furniture shown above (e.g. tables, chairs and carpet) are exclusively for Privacy Pods. Cannot be purchased separately.

Reception Counters

Reception Counters reflect your company's identity. We can customize yours to make it more impressive, professional, and most of all, unique.

Reception counter marks the first impression. It reflects the brand representation and optimizes the space in the reception area being the information hub in the office.

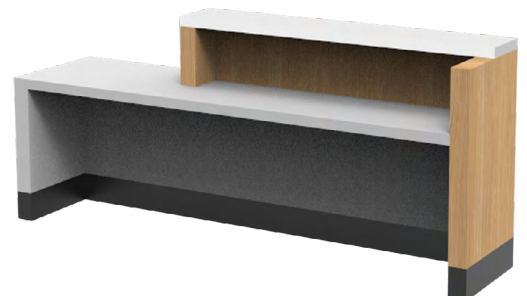

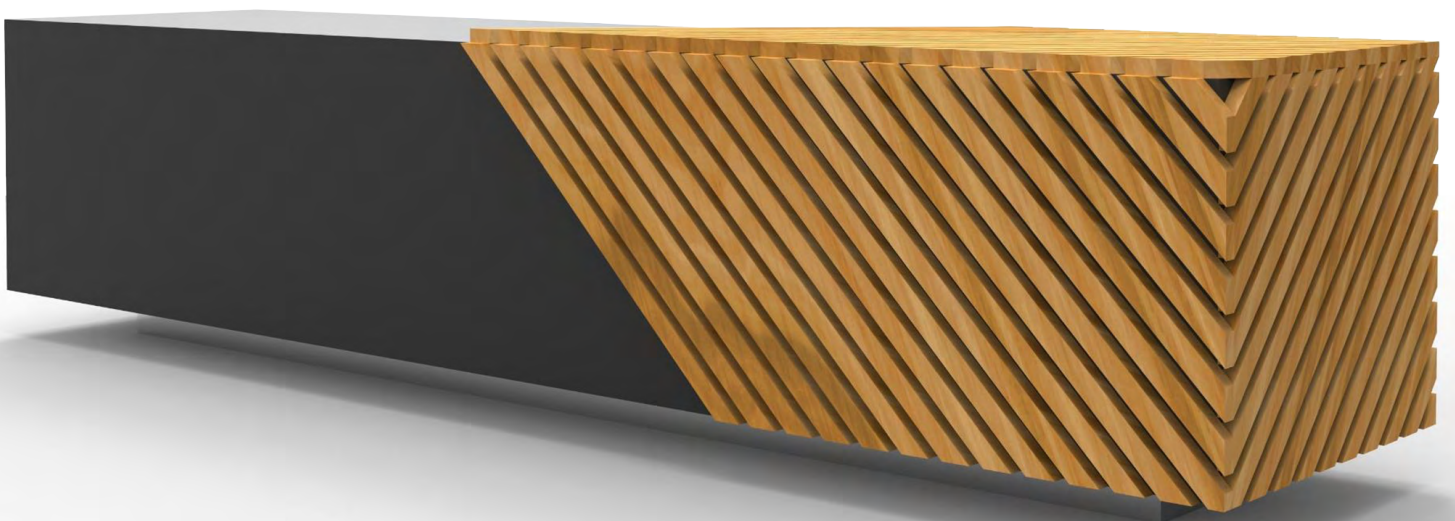

Enhancing its functionality includes integrated storage solutions, built-in sockets, cable management and privacy panel.

Customize a reception counter that can have powerful impact to visitors, considering its unique design, shape and materials.

A well-designed reception counter will reinforce a positive feedback.

Storage & Joineries

Storing made easy at work with OFFICE ESSENTIALS' storage units that provides security and has ability to be organized.

Cluttered workspaces can lead to a cluttered mind. Messy desk can cause anxiety, increased stress level and difficulty in concentration.

Storage and filing cabinets create a visually pleasing and organized environment that stimulates motivation, gives calm state of mind and presents a professional look.
